**Name**

**Company Name**

**E-mail Address**

**Order Number**  
-----

In order to ensure that the barcode labels you receive will work with your system we need the following information:

**Library/Autoloader  
Manufacturer**

**Library/Autoloader Model**

**Label Sequence**

**Does your system require a  
checksum character? (most  
LTO systems do not)**      **No**  
**Yes**

**Do you want the "human  
readable" characters to be  
black & white or color coded?**      **Black & White**  
**Color Coded**

**Special Instructions**

**Would you like us to apply the  
barcode labels to your tapes?**      **Yes**  
**No**

There is another option. If you currently have barcode labels and have the ability to scan a label and e-mail it to us, we can then use it to create similar labels.

It usually takes 24-48 hours for barcode labels to be completed. We will e-mail you proofs for your approval before printing final product.
